

INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY (PHD)

Program Description

School of Psychology, Family, and Community Faculty (<http://spu.edu/academics/school-of-psychology-family-community/faculty-and-staff/>)

School of Psychology, Family, and Community Graduate Programs Website (<http://spu.edu/academics/school-of-psychology-family-community/graduate-programs/>)

The Doctor of Philosophy (PhD) in Industrial-Organizational Psychology (IO) program (<http://spu.edu/depts/spfc/orgpsych/>) seeks to develop scholars, professional practitioners, and leaders who will actively engage the community and businesses around them, improving organizations and developing people as part of their jobs.

Graduates of this Industrial-Organizational Psychology program become scholars possessing the necessary tools, theoretical knowledge, and analytical skills to launch their academic or consulting careers. They are practitioners managing change, applying scientific methodologies, and improving the organizations around them; and they are leaders guiding organizations, motivating and building teams, and developing future leaders.

Additionally, the doctorate in Industrial-Organizational Psychology provides you with the training to occupy the same position as master's graduates. The distinctiveness of the doctoral program is in its additional emphasis on theory, methodology, and research.

If you have already been granted the MA in Industrial-Organizational Psychology at SPU and wish to pursue this PhD, you must apply to the Industrial-Organizational Psychology doctoral program.

Both programs are designed with a focus on the science and rigor associated with quality degrees in this field along with an equal emphasis on the practice of industrial-organizational psychology. The curricula for the doctoral program has been structured according to the guidelines for graduate training in industrial/organizational psychology published by the Society for Industrial and Organizational Psychology (<http://www.siop.org/>) (SIOP), a division of the American Psychological Association (<http://www.apa.org/>).

The curriculum in this Industrial-Organizational Psychology program satisfies the suggested areas of competence for graduates in industrial-organizational psychology, ensuring that you are fulfilling not only the expectations for a doctoral-level education, but also fulfill the expectations of experts working in the field.

Admission Requirements

For admission to this doctoral program, the following are required:

- Online application (<http://admissions.spu.edu/apply/>) and \$75 processing fee
- Bachelor's degree, minimum
 - From a regionally accredited institution, with a minimum grade-point average of 3.0 in all undergraduate work.
 - A minimum of one statistics course in business or social science.

- Three courses in psychology must be completed (at a regionally accredited institution) prior to admission to the program. One course in business, political science, or sociology (completed at a regionally accredited institution) may be substituted for one of the three required psychology courses.
- Graduate record exam (<http://www.ets.org/gre/>) (GRE) (optional)
 - Administered within five years of the deadline date for application to the program.
 - Combined score of 300 on the verbal and quantitative sections of the GRE is preferred.
 - If you have significant qualifications and exceptional recommendations but fail to meet the GPA or GRE minimum scores, you may still be considered for admission to the doctoral program.
- Personal statement
 - Demonstrating your writing and grammatical skills.
 - Addressing career objectives, personal qualifications, experience, and other insights as deemed appropriate by you.
 - The rationale for seeking the degree and choosing to attend SPU.
- Letters of recommendation
 - Three letters with
 - i. one from a person who has experienced you in a professional setting (i.e., a current or former employer);
 - ii. one academic reference from a former professor or instructor; and
 - iii. one personal recommendation (not a family member).

International Students

- If English is not your first language, you must take the Test of English as a Foreign Language (TOEFL) (<http://www.ets.org/toefl/>) and present a minimum score of 600 on the paper-based test, 250 on the computer-based test, or a 100 on the internet-based test.
- If you are not a U.S. citizen or permanent resident, you must provide an official confidential statement of financial support covering each year of intended enrollment. This is necessary in order to issue the paperwork for an I-20 immigration form.
- More information about admission requirements (<https://spu.edu/graduate-admissions/admissions/international-admissions/>) for international graduate students.

Deadline

January 15

Admission Process

The Admissions Committee of the Industrial-Organizational Psychology program will conduct a preliminary screening process. Finalists will be invited to come to campus for personal interviews.

Admission to the doctoral program depends upon recommendation by the IO faculty and approval from the IO program director. The entire process is usually completed within eight weeks after the final deadline date for applications.

Transfer of Credits

Students who have taken graduate work at a regionally accredited institution may be allowed to transfer up to 12 quarter credits, and students who have been granted a master's degree from a regionally accredited university in psychology, organizational psychology, business administration, human resources, or a related field may be allowed to

transfer up to 67 credits. Of these, a maximum of 18 credits may be transferred toward the elective requirement.

Students must provide applicable transcripts and/or syllabi for any course they wish to transfer. Each course must be at least 3 graduate quarter credits, equivalent to courses taught in the organizational psychology programs at Seattle Pacific University, and completed within seven years of admission. (In rare cases, students may petition for courses beyond the seven-year timeframe if they can demonstrate application of course content to their current academic pursuits.) A minimum grade of "B" will be needed for transfer work. Any transfer-credit petitions should be submitted only after formal admission to the doctoral program.
