

# NURSING

---

## About the Department

Lydia Green Nursing Program Faculty (<https://spu.edu/academics/college-applied-natural-sciences/faculty-staff?d=Nursing>)

Lydia Green Nursing Program Website (<https://spu.edu/academics/college-applied-natural-sciences/undergraduate-programs/nursing>)

The Lydia Green Nursing Program prepares graduates of competence, character, and wisdom to meet the health needs of a community by promoting wellness and providing illness care for its members.

Seattle Pacific University's nursing program – undergraduate pre-licensure BSN is approved by the Washington State Board of Nursing (<https://nursing.wa.gov/>) and accredited by the Commission on Collegiate Nursing Education (<https://www.aacnursing.org/ccne-accreditation>) (CCNE).

## Our Mission

Based on our commitment to Christian values, we seek to partner with the community to develop graduates who engage the culture, change the world, and:

- Serve all people with the highest level of professional care.
- Demonstrate competence in a diverse and changing environment.
- Act with wisdom, character, and caring.
- Demonstrate leadership in all aspects of nursing.
- Promote optimum health of body, mind, and spirit.

Our core values are: excellence; respect; diversity; inquiry; and caring presence.

## Majors

- Nursing (BS) (<https://catalog.spu.edu/undergraduate/college-schools/cans-health-behavioral-science/nursing/nursing-bs/>)

## Program Learning Outcomes

Five program outcomes frame the curricula and student learning outcomes in all levels of the nursing program:

1. **Generalist:** Integrate concepts of liberal arts and sciences to promote well-being and manage complex nursing care, incorporating sound clinical judgement through nurse generalist practice.
2. **Healthcare Leader:** Employ leadership principles, evidence-based practice, and quality improvement strategies to influence health policy and regulations for provision of safe and quality care across the lifespan.
3. **Health Information Manager:** Use patient care technologies and manage clinical information to deliver safe, effective, and quality care in a variety of settings across diverse populations.
4. **Collaborator:** Collaborate in the management, coordination, and delivery of interprofessional care for diverse individuals, families, and communities.
5. **Professional:** Demonstrate professional behaviors that reflect values consistent with lifelong learning, spiritual awareness, cultural humility, and ethical standards.
