The Bachelor of Arts and Bachelor of Science Psychology majors are rigorous yet flexible programs designed to meet the American Psychological Association Guidelines for the Undergraduate Psychology major while also fulfilling SPU's mission to provide students with a transformative and holistic experience grounded in Christian faith.

As such, these programs prepare you with extensive knowledge of the field; scientific and critical thinking skills; an awareness of diversity, ethics in practice, and social responsibility; effective oral and written communication skills; and professional-level training and experiences (e.g., research and internship opportunities) for both careers and graduate school in psychology.
