

SCHOOL OF PSYCHOLOGY, FAMILY, AND COMMUNITY

About the School

Katy Tangenberg (<http://spu.edu/academics/school-of-psychology-family-community/about/from-the-dean/>), PhD, Dean

School of Psychology, Family, and Community Faculty (<http://spu.edu/academics/school-of-psychology-family-community/faculty-and-staff/>)

School of Psychology, Family, and Community Website (<https://spu.edu/academics/school-of-psychology-family-community/>)

Faculty, staff, and students in the School of Psychology, Family, and Community strive to become a community of learners who are:

- Guided by faith. Exploring the implications of vital expressions of Christian faith for the human condition, and for fostering emotional and relational healing and health.
- Rooted in academic discipline. Fostering rigorous and creative learning environments, and contributing primary scholarship to the scientific study of psychological and social processes.
- Committed to service. Nurturing creative partnerships with our local community and beyond in order to serve in, and learn from, socially and culturally diverse settings.

Our Mission

We seek to:

- Provide students with solid academic and experiential grounding in the theory, research, and practice of the field of psychology.
- Prepare and inspire motivated and able students to enter and contribute to the field of psychology.
- Nurture students toward valuing themselves and others as persons of worth created in God's image.
- Empower students to act in this world. That is, actively celebrating God's human and non-human creation, showing mercy and compassion to the vulnerable, and challenging, and changing aspects of society that deny or denigrate persons.

Minors

- Psychology Minor (<https://catalog.spu.edu/undergraduate/college-schools/school-psychology-family-community/psychology/psychology-minor/>)

Program Learning Outcomes

The Psychology curriculum follows the American Psychological Guidelines for the undergraduate Psychology major. These guidelines offer five learning goals summarized below and easily remembered by the acronym: GOALS.

- Grow in knowledge.
- Obtain scientific inquiry and critical thinking skills.
- Adopt ethical and socially responsible values that are sensitive to diversity.
- Learn to communicate effectively.
- Succeed with professional#level skills that transfer to the workplace.

These learning outcomes map onto a trajectory through the major that grounds students in the science of psychology while adopting guild recommendations that identify psychology as a workforce major in as much as it is a graduate study preparatory major.
